

AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0023] of the application as follows:

[0023] The sampling unit 30 shown in **FIGURE 3** comprises sampling chambers 50 extending between two ends 36 of the unit 30, each chamber 50 housing a sampling medium (not shown). In a preferred embodiment, the sampling medium is AMBERSORB® adsorbent material Ambersorb®. However, the sampling medium can comprise other suitable sorbent materials. Each sampling chamber 50 preferably contains an amount of sorbent material suitable for sampling contaminants or pollutants in a liquid. In a preferred embodiment, each sampling chamber 50 contains less than about 1000 mg of sorbent material. In another preferred embodiment, each sampling chamber 50 contains between approximately 100 and 2000 mg of sorbent material. Another embodiment contains approximately 200 mg of sorbent material.
